

Liquids in vibration

Yeah, we're living on the road
we've got enough stones to throw
Oh, we balance on a rope
do you really wanna know?

Outside we target the enemy
Inside we fight against invasions
we're so busy we can't sleep
liquids in vibration

Yeah, we're living on the road
we've got enough stones to throw
Oh, we balance on a rope
do you really wanna know?

You are in search of a remedy
Somehow you feel anaesthetised
investigate and you will see
who's really going on

Yes sir, we're living on the road
we've got enough stones to throw
Oh, we balance on a rope
liquids in vibration
